## STRETCH DRY SYSTEM

More comfort, less heat: a goal that OMP pursues since always, and now concretizes with STRETCH DRY SYSTEM. The maximum breathability of OMP Dry System is combined with the elasticity of 3D materials, to allow the best freedom in movements while reducing body temperature. Two fundamental elements to help drivers improve their performance.

The cooling effect of the inserts is improved when worn with the OMP ONE breathable underwear that now offers a cooling spray solution. OMP's Dry System is a registered utility model.

# Art SUITS

This model of suit can be customized through the use of images, photos and color blendings. This peculiar feature is possible thanks to our proprietary technology "OMP Print Art". In order to outline what spaces are at the customer's disposal for personalization, we show you the exploded view of those areas.

to be used with ID/794 system for longer races or go directly for top performances with the **COOLSHIRT PRO AIR AND WATER SYSTEM ID/795**, with additional ventilation for your helmet or seat (see page 57).

To be used only with quick connection in red colour.

## DUAL FLOW CONTROLLER

**ID/798**

(water and air)- Controls the amount of refrigerating effect and gives the driver control of his/her comfort while in the race car by controlling the flow of cooling water through the shirt and the flow of fresh air in the helmet. Available as replacement for Air & Water System dual controller.

## UNIVERSAL CONNECTOR AND DRAIN KIT

**ID/799**

Universal connectors for supply hose ID/797. Available as replacement of original parts.

## SAFETY PULL RELEASE CONNECTOR

**ID/800**

Safety pull release connectors that allow to connect the shirt to the supply hose ID/797. Available as replacement of original parts.

## BRACKET

**ID/801**

Spare mounting tray for Club System (ID/794). Comes with tie down strap.

## MAINTENANCE ADDITIVE

**PC02004**

This non-toxic bio-degradable solution contains a fungicide yet is safe to use in all Coolshirt water based cooling systems. Regular use of this additive will not only help clean the system but it will also improve the performance and life of the system pump.

## BAG SYSTEM

**ID/793**

**WATER COOLING SYSTEM PORTABLE FLEXIBLE BAG**  
Lightweight and waterproof canvas denier bag with an internal 12 V pump. For use in all types of racing. Cooling time: 1/2h - 1h More accessories available.  
**Supply hose ID/797 sold separately.**

## CLUB SYSTEM

**ID/794**

**WATER COOLING SYSTEM CLUB SYSTEM RIGID BOX**  
23 lt capacity cooling unit with an internal pump which supplies water to the cooling underwear through 3 mt of double insulated hose with automatic shutoff/quick disconnects. Perfect from road courses to oval track racing. Cooling time: 6h More accessories available. **Bracket ID/801 included. Supply hose ID/797 sold separately.**

## COOL SHIRT SYSTEM

**ID/795 COOL SHIRT PRO AIR & WATER SYSTEM**

Used in all levels of racing, it provides temperature controlled cooled water to the driver's Cooling Shirt and cooled filtered air to the helmet. 2,5 mt of double water hose with automatic shutoff/quick disconnects attach the shirt to the unit. The kit includes the box with internal pump and blower, supply water hose (2,5mt), dual flow controller (ID/798), mounting tray (ID/801), air hoses, connectors and filters. Cooling time: 4h More accessories available.

## FLOW CONTROLLER

**ID/796**

Controls the amount of refrigerating effect and gives the driver control of his/her comfort while in the race car by controlling the flow of cooling water through his/her shirt.

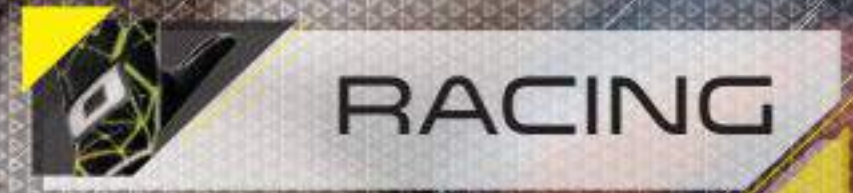

## SUPPLY HOSE

**ID/797**

CoolShirt 10ft (3 mt) supply hose enables the Cool Shirt Bag or Club System Box to be stored further away from the driver if required. Inherently flexible, the Hose Supply is an ideal accessory to ensure future flexibility for the Cooling system. Also available as replacement for CoolShirt water cooling system damaged hoses.

## SUMPGUARDS, TANKGUARDS AND DIFFERENTIAL GUARDS

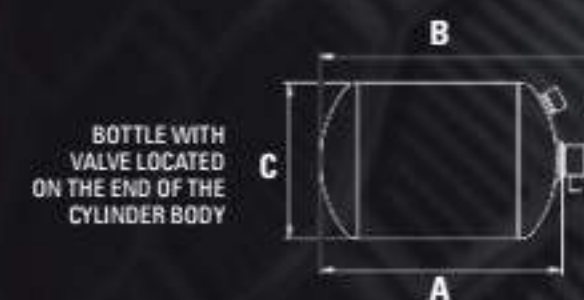

Made from a special aluminium alloy, these sumpguards have several functions: they protect the mechanical parts such as sump, gear-box, transmission etc. and they also contribute to stiffen the whole body and the front part of the car. For this reason they are suitable for every day use and are particularly useful for those driving on uneven roads.

## ONE COLLECTION

Very compact and ultralight fire extinguisher system, electrically activated, suitable for saloon cars. FIA 8865-2015 rules complying. Aluminium bottle, the extinguisher can turn off fire in few seconds injecting in the cockpit and in the engine bay different fire-extinguishing medium. The system gets pressurized when activated enabling the discharge of the extinguishant. 3 nozzles are for the engine bay in order to protect the most critical and dangerous parts depending on the type of vehicle, 2 nozzles are for the cockpit to ensure the driver front and rear protection. The system is available in two versions: "L" version (only for medium-large sized cockpit) and "S" version (suitable for small size cockpit). L and S systems have the same dimensions and weight, but different amount of fire extinguisher medium in way to be safe and efficient at the same time. Fixing brackets, clamps, tubing and connections are included.

## TYRE WARMERS

A line of tyre warmers available in 4 different standard sizes, offering greater versatility across a wider range of tyre sizes and now available in two types: with a standard temperature control thermostat or with a central electronic temperature control box.

**Interior:** Nomex®.

**Exterior:** Cordura® which improves transpiration allowing moisture to escape away from the tyre.

**Electrical cables and connectors are compliant with EEC electrical standards.**

Upon request, tyre warming blankets can be made to measure. Tyre warmers for motorcycles are also available upon request.

**Tyre warmers models with a Central Electronic Temperature Control Box (part number T200)** allows each of the 4 tyres to have individual temperature settings. The control box features an electronic control device controlled by software preventing overheating. The external case of the control box is ABS plastic with an electrical protection rating of IP44.

**Tyre warmers models with a Standard Temperature Control** allows the tyre surface to reach 80/85 °C. The time required to reach this temperature is depends on ambient temperature, tyre dimensions and operating conditions.

### WARNING

Motorsport is an intrinsically dangerous activity, that can result in serious or lethal injuries. The items described in this catalogue provide for protection on specific parts of the body for a limited period of time in controlled test conditions, in accordance with the FIA standard specified on each item's label. No device can provide a complete protection from every injury in case of accident or fire. The user, at the time when he uses the products, relieves the manufacturer, the distributor, the owner, the employees, the agents, the sales representatives from any responsibility. It is the user's responsibility to become familiar with all available informations about the correct use and maintenance of the products. If uncertain of the correct use and maintenance, the user must not use the products. The manufacturer, the distributor and their respective owners, employees, agents and representatives are not responsible for mistakes or omissions.

### DISCLAIMER

- Each personal safety device is part of a complete safety system including the other racewear products, protections, the vehicle, the racetrack, the event organization.
- Personal safety products are not conceived to provide the same performance level or protection through the whole specific product. Different parts or areas of the product can provide different levels of protection, in spite of the fact that they may appear the same.
- Personal safety products must always be inspected before use and replaced after any evidence of wear, and after exposure to chemicals, excessive heat or any unusual condition.
- Products are sold to be used in legally sanctioned autosport events only, and are not intended to be used and/or installed for regular street use, as street use safety products are subject to different homologations and laws depending on the State or country.
- It is the user's responsibility to become familiar with all available informations about the correct use and maintenance of the products. If uncertain of the correct use and maintenance, the user must not use the products. The manufacturer, the distributor and their respective owners, employees, agents and representatives are not responsible for mistakes or omissions.
- Every single modification or customization of the products, and every operation on them may reduce their security features. Thus, the user is responsible at his own risk for the reduction of security features caused by modification or customization.

### BY THE USE OF THESE PRODUCTS, THE USER ACKNOWLEDGES:

That each personal safety device is part of a complete safety system including the other racewear products, protections, the vehicle, the racetrack, the event organization; that personal safety products are not conceived to provide the same performance level or protection through the whole specific product. Different parts or areas of the product can provide different levels of protection, in spite of the fact that they may appear the same; that personal safety products must always be inspected before use and replaced after any evidence of wear, and after exposure to chemicals, excessive heat or any unusual condition. That the helmet is conceived and designed to reduce the risk of cranial and facial injuries only in case of impact. That no helmet can protect against any possible and foreseeable impact.

The quality OMP system is certified since the year 1999

OMP achieved the ISO 9001:2015 quality system certification, awarded by TÜV, the world's biggest inspection service.

The certification is valid for design, manufacture and trade of accessories for racing and car application, sportswear and racewear.

ISO 9001:2015 is the strictest international standard for company quality so far, and it demonstrates the ability to use processes that meet customer, partner and regulatory requirements, to reach a high level of product quality and customer's satisfaction.

**RACING SPIRIT** IS A NEW AUTO-INSPIRED LIFESTYLE BRAND THAT CELEBRATES THE FASCINATING WORLD OF CAR RACING ALONG WITH DRIVERS AND ENTHUSIASTS ALIKE.

*Win or lose tomorrow is another day and we will start over again. It's not how many times we fall, it's about how many times we stand up: this is what we do everyday, it's in our blood.*

*The only goal is winning, second place is first place loser. At all times we're ready to solve problems, we're for teamwork, we love competition and we're born to race.*

*We push ourselves for milliseconds, to save fuel or weight... we engineer, design, manufacture, tweek, test, tweek some more, test again, race and push ourselves to the limit. Great is not enough because tomorrow someone will be better than us, and we need to work harder to stay ahead of the curve.*

*The Racing Spirit is a never-ending quest to be the best on and off the track!*
