QUADBOSS INC.
LIMIT
THE MUD LIFE

**WE HUNT. WE RIDE TRAILS. WE WORK
THE LAND. JUST LIKE YOU DO. OUR LOVE
OF RIDING FUELS OUR PASSION FOR
INNOVATION. AND YOU'LL SEE THE RESULTS
IN EVERY QUADBOSS PRODUCT.**

From tires and wheels to winches and windshields, we will help you make your ATV or SXS into a workhorse or a trail hound. We are your source for high-quality replacement parts and innovative accessories. We keep your ATV and SXS running.

MONSTERS OF THE SOUTH

**ONE OF THE COUNTRY'S LARGEST ATV
AND UTV EVENT PROMOTERS AND THE
NATION'S TOP UTV CUSTOMIZER.**

Monsters of the South was founded in 2015 as a customizer of UTV's and became known across the country for its over-the-top, custom designs. The organization grew to be one of the largest and most respected companies in the UTV industry. While their event roots run deep in the mudholes of the south, they are expanding into racing, performance and sand events around the country in 2021.

QBT680

MUD TIRES

Designed to perform in muddy conditions, the QBT680 Mud Tires feature an aggressive, directional tread pattern. 1-3/4" tractor-style lugs with wide grooves propel you through deep mud, providing excellent traction and consistent clean out. Continuous center pattern offers a smooth ride when on hard pack terrain. 6-ply bias construction.

QBT673

MUD TIRES

The most aggressive Mud Tire in the QuadBoss® lineup. If muddin' is your game, the QBT673 is the tire to carry you through. With a built-in rim guard to protect the wheel from damage and a specialized, directional tread pattern with 2" deep lugs, the QBT673 powers through the mud and terrain delivering exceptional performance.

QBT700

SERIES TIRES

When performance comes first, the lightweight 4-ply bias construction of the QuadBoss® QBT700 Series Tires should be on the list. With unparalleled technology and a dynamic tread pattern, the QBT700 offers a superior weight-to-performance ratio, with excellent traction during acceleration and braking, in soft to hard pack conditions.

QBT446

RADIAL UTILITY TIRES

Built around its non-directional tread design, the QBT446 delivers optimal traction with extreme puncture resistance, even on the most difficult terrains. Features an ultra-durable, 8-ply radial carcass and casing with an over-center tread design and built-in rim guard, creating a super-smooth ride with added damage protection.

QBT445

UTILITY TIRES

Bias, 4-ply construction with an advanced tread pattern to grip and reduce skidding on wet surfaces. QBT445 Utility Tires are an O.E.M. replacement-style tire with a non-directional tread pattern, that's great for use as a front or rear application.

QBT454

UTILITY TIRES

Designed to provide a smooth and consistent ride with optimal traction in a variety of terrains. The QBT454 Radial Utility Tires are available in 12", 6-ply and 14", 8-ply sizes with a non-directional tread pattern and built-in rim guard that protects the wheel.

QBT448

UTILITY TIRES

Designed for multi-purpose use, the QBT448 Utility Tires feature large center knobs that reduce roll-resistance, while improving overall traction and tread life. The directional tread pattern and diverse shoulder knobs increase handling and cornering in loose-to-intermediate terrain.

QBT808

RADIAL UTILITY TIRES

Designed to perform on all terrains, the QBT808 is constructed from an 8-ply, non-directional radial carcass with an aggressive tread pattern. Meets or exceeds D.O.T. standards.

BARBWIRE WHEELS

QUADBOSS WHEELS

Take your ride to the next level with radical designs and impressive finishes. Precision-machined, high-quality aluminum construction offers superior performance, in an ultra-strong, super-lightweight package.

WHEEL SPACERS

Precision-made from 6061 aircraft aluminum to be strong and durable, yet lightweight. Our wheel spacers help widen the vehicle's footprint and increasing stability. Includes wheel studs and nuts for a quick, ready-to-go installation process.

SPLINE LUG NUTS

You have beer nuts and peanuts, but none of those will ever be as important offroad as these durable lug nuts. Sold in sets of 16, offered for all applications and includes lug key.

STANDARD LUG NUTS

You have beer nuts and peanuts, but none of those will ever be as important offroad as these durable lug nuts. Sold in sets of 4 with your choice of black or chrome.

SINGLE ROW LED LIGHT BARS

DOUBLE ROW LED LIGHT BARS

Housed in durable, heavy-duty cast aluminum that's designed to withstand extreme conditions, the Double Row LED Light Bar features high-intensity LEDs that can operate as a combo flood and spot beam with over 50,000 hours of life expectancy. Includes abrasion and shatter-resistant lens with a stainless steel military breather to prevent fogging and condensation build-up. Works with any 12v DC application and backed by a one-year manufacturer's warranty.

DRL SINGLE ROW LED LIGHT BARS

11.5"

Housed in a heavy-duty, extruded aluminum casing that's built to withstand the elements, the DRL Single Row Light Bars feature zero glare, half surface optics with a combo flood and spot beam, paired with a white daytime running light. Includes abrasion and shatter-resistant lens with a stainless steel military breather to prevent fogging and condensation build-up with over 50,000 hours of life expectancy. All components are backed by a one-year manufacturer's warranty.

21.5"

31.5"

41.5"

LED POD LIGHTS

Housed in durable, heavy-duty cast aluminum that's designed to withstand extreme conditions, the LED Pod Lights feature four, 5-Watt high-intensity LEDs with an abrasion and shatter-resistant lens. Available in a spot or flood pattern, with over 50,000 hours of life expectancy and backed by a one-year manufacturer's warranty. Works with any 12v DC application and includes the DT harness and switch for installation.

DRL HIGH-INTENSITY PODS

Housed in durable, heavy-duty cast aluminum that's designed to withstand extreme conditions, the High-Intensity DRL Pods feature four, 4-Watt high-intensity LEDs, paired with a white daytime running light. Abrasion and shatter-resistant lens have a stainless steel military breather to prevent fogging and condensation build up. With over 50,000 hours of life expectancy and backed by a one-year manufacturer's warranty. Works with any 12v DC application and includes the DT harness and switch for installation.

ROCK LIGHT KIT

Designed for use with 12-Volt systems, the Rock Light Kit includes four LED lights that mount inside the wheel wells or under the chassis to illuminate the wheels and tires. Each light includes three, 345-Lumens, high-intensity LEDs that project a 120° flood beam pattern. Housed in a 100% waterproof enclosure with sealed, O-ring, watertight connectors and a rubber mounting base to provide a clean, integrated look after installation. Includes wiring harness to connect all four lights together, 12" DT pigtail connector and all mounting hardware. DT wiring harness is required for the kit to function and sold separately. All components are backed by a one-year manufacturer's warranty.

LED MOUNTING CLAMPS

Precision-milled, CNC-billet aluminum construction and 360° rotating mounting tabs are extremely durable and offer a multitude of mounting positions. Each kit includes two mounting clamps with brackets and hardware, all backed by a one-year manufacturer's warranty. Offered in 1.5", 1.75", 2" and Pro-Fit clamp sizes

STEEL VS. SYNTHETIC

QUADBOSS® WINCHES ARE AVAILABLE IN EITHER STEEL CABLE OR SYNTHETIC ROPE, SO WHICH BEST FITS YOUR NEEDS? HERE ARE SOME FEATURES AND BENEFITS OF BOTH:

STEEL

The traditional durability of steel cable and its abrasion-resistance, great for utility applications where the line may contact objects like rocks, stumps and other items that may rub against the rope. It has been used for decades by riders and drivers; however, steel rope is heavier and less flexible than synthetic line. Steel rope is also cheaper than synthetic rope.

DYNEEMA®

Dyneema® Synthetic rope is the result of innovation. This strong, lightweight, easy-to-handle rope will float in water making it a great choice for vehicle recovery. Dyneema® rope is more prone to damage by abrasion and requires the use of the included abrasion sleeve when the rope comes into contact with an object. Synthetic ropes should be checked regularly for wear and are more expensive than steel ropes; however, it's a great choice for those who are looking to keep weight down, push the limits with their vehicle and use the winch frequently.

5,000 LBS.

WINCH WITH DYNEEMA ROPE

Rated to pull 5000 pounds, 3-stage planetary gear drive system, equipped with both wired and wireless switches and a Hawse fairlead.

3,500 LBS.

WINCH WITH DYNEEMA ROPE

Rated to pull 3500 pounds, 2-stage planetary drive gear system, equipped with a wired remote and Hawse fairlead.

2,500 LBS.

WINCH WITH DYNEEMA ROPE

Rated to pull 2500 pounds, 2-stage planetary drive gear system, equipped with wired remote and a Hawse fairlead.

5,000 LBS.

WINCH WITH WIRE CABLE

Rated to pull 5000 pounds, 3-stage planetary drive gear system, equipped wireless and wired remote and roller fairlead.

3,500 LBS.

WINCH WITH WIRE CABLE

Rated to pull 3500 pounds, 2-stage planetary drive gear system, equipped with a wired remote and Roller fairlead.

2,500 LBS.

WINCH WITH WIRE CABLE

Rated to pull 2500 pounds, 2-stage planetary drive gear system, equipped with a wired remote and Roller fairlead.

WINCH ACCESSORY KIT

Get all the essential winch accessories, in an all-in-one package. Includes 8,000 lbs. snatch block, 1/2" D-shackle, 1" x 8' tree trunk protector and tool bag.

SWIVEL DUMP TRAILER

Compatible with ATVs, UTVs and tractors, the Swivel Dump Trailer is constructed from a structural foam body, that won't rust, with a pivoting hitch that adjusts on uneven terrain and a pass-through undercarriage to provide 12" of ground clearance. Carries up to 12-1/2 cu. ft. or 1,250 lbs. capacity, with a built-in swivel that allows the body to dump anywhere within a 100° radius. Backed by a one-year limited manufacturer's warranty.

LARGE HEAVY-DUTY DUMP TRAILER

Move larger loads with ease. The Heavy-Duty Dump Trailer is constructed from a durable, 16-gauge welded cart body with 11-gauge steel undercarriage and drawbar, all powder-coated for protection. Carries a total 20 cu. ft. or 1,500 lbs. load capacity. Proudly made in the USA and backed by a one-year limited manufacturer's warranty.

FINISH CUT MOWER

Take your landscaping to the next level with QuadBoss®. The Finish Cut Mower features a triple blade, manicured cut with a true floating deck and side discharge. Guaranteed height select matches the exact cutting height of your rider for clean, consistent lines. One-year limited manufacturer's warranty from the purchase date and two-year warranty on the engine, from Briggs & Stratton.

25-GALLON BOOMLESS ATV SPRAYER

No need to lower any boom with this powerful sprayer. Corrosion-resistant polyethylene tank, 45 psi, 12-Volt with a 3.8 gallon per minute pump. Includes a handgun with adjustable pattern tip and 15ft. of hose.

FARM JACK

Heavy-duty all steel construction that's ideal for lifting offroad vehicles and farm equipment, up to 3,000 lbs. Can be utilized for winching, spreading and hoisting with an adjustable top clamp clevis.

ATV/UTV HITCH

Designed for ATVs and UTVs to tow a variety of trailers without the need to change hitches. Fits most ATV/UTVs with factory receiver.

DRIVE BELTS

QuadBoss® Drive Belts are a direct O.E.M. replacement that's engineered and designed for performance and reliability. Specially formulated rubber compounds and aramid cord provide strength and durability. One-year limited manufacturer's warranty. Made in USA.

REPLACEMENT AXLES

High-strength, 40CR chromium bar that's precision-machined to match O.E.M fitment specs and exceed stock axle strength. QuadBoss® Replacement Axles feature neoprene boots to create a waterproof seal and a laminate coating that resists rust and corrosion.

RUGGED AXLES

High-quality O.E. replacement axle with precision-ground components, low-profile stainless steel clamps and fully assembled outboard/inboard joints. Two-year manufacturer's warranty with normal wear and tear.

A WARNING
Always follow the operator's manual for proper use of the vehicle.
Do not exceed the rated capacity or use the vehicle for any other purpose.
Do not use the vehicle with an incorrect load or use it in a way that is not intended.

HIGH-DENSITY SLIM ROOF

Made from .25" thick, premium, HMWPE (High Molecular Weight Polyethylene) the Slim Roofs resist flexing and provide maximum UV-resistance with a sleek, flat design for a more rugged look.

UTILITY CABS

Featuring high-visibility, automotive-quality design, tough materials and fine craftsmanship, QuadBoss® Cabs are built for function and durability. Cabs do not need to be removed for trailering at highway speeds. All roofs are securely bolted to the chassis with the exception of the Polaris® XP 900, which easily installs with over-center, cam-lock quick-clamps. Most applications have gas-operated door struts as standard equipment, along with driver and passenger rearview mirrors.

SIDE VIEW MIRRORS

Highly adjustable, convex surface provides maximum wide-angle view and image stability, with a flip-back, foldaway design to prevent damage to the mirror and housing. Low-profile mounting bracket minimizes interference with other attachments. Sold in pairs.

REAR VIEW MIRRORS

Includes shatter-resistant safety glass and convex surface provides wide-angle view and image stability with a low-profile mounting bracket to minimize interference with other attachments.

Adjustable mounting system provides maximum viewing range. One-year manufacturer's warranty. Overall size: 10.2" x 3.9"

WINDSHIELDS

Premium 0.177" thick, optically clear, polycarbonate material with rubber-coated, stainless steel mount straps that attach to the roll cage. Folding windshields hinged for use in up or down position; toolless operation. Includes mounting hardware. Made in USA.

HALF

Pit crew speed; easily attach windshield to the roll cage with rubber-coated stainless steel mount straps. Visit your dealer for fitment.

FOLDING

Wind in your face, or not. Your call. Hinge allows folding windshields to be used in up or down position. Toolless for quick and easy transitions. Visit your dealer for fitment.

UTILITY BOX

Lightweight and durable, the Utility Box is constructed from aluminum diamond plate, allowing it to take a beating and keep its contents protected. The aluminum one-piece tub and lid are designed to support heavy loads, absorb tool drops and prevent leakage. The patented foam-filled lid creates a solid structure to prevent bending or warping and ensures easy opening and closing from either side. Mounts sold separately.

RANGER CARGO BOX SET

Designed for maximum storage space, the Ranger Cargo Box Set can be installed in multiple locations, without the need for tools or extra hardware. Set includes two cargo boxes constructed from durable, rotomolded, linear polyethylene and heavy-duty lids, complete with lockable latches. Dimensions: 26-1/2" x 15" x 17-1/2"

WEEKENDER TRUNK

The largest seat and storage system offered by QuadBoss®, the Weekender Trunk features comfortable back and seat cushions, with storage under each armrest and a large middle compartment that's large enough to hold a gas container. Not intended for passenger or operator use while vehicle is in motion.

ATV BACKREST

Heavy-duty, 2" thick cushion, covered with durable, wear-resistant polyester. Attaches quickly to cargo rack with included hardware and folds flat for safe trail riding. Sturdy, square tubular steel frame supports the soft, foam backrest. Fits metal or composite racks. One-year manufacturer's warranty.

UTV JUMP SEAT

Cushioned seat wrapped in 300-denier, water-resistant nylon on a powder-coated steel frame with built-in safety belts. Easily installs on most UTVs using quick-detach brackets. Perfect for relaxing at the trail's end.

ATV ARCHED RAMPS

Proudly made in the USA from 6063-T5 aluminum billet that's been machine-welded, the ATV Arched Ramps provide additional clearance, preventing bottoming out and vinyl-coated tips for added grip during loading/unloading.

ATV BI-FOLD RAMPS

Proudly made in the USA from 6063-T5 aluminum billet that's been machine-welded, the ATV Bi-Fold Ramps feature vinyl-coated tips and a security strap to allow for safer loading/unloading. Available in multiple widths to accommodate almost any ATV.

QUAD COVERS

Extra-large sizing fits the largest quads and most lawn tractors. Heavy-duty, water-repellent nylon and the durable construction is UV-resistant.

COVER FOR 4-SEATER UTV

Reliable all-weather protection for your 4-seater. High-quality cover provides heavy-duty protection regardless of weather conditions.

COVER FOR CREW UTV

Protect your UTV when it's not in use and avoid damage from the elements. Heavy-duty, coated polyester construction with maximum water repellency and UV-resistance. Vents on both sides help prevent blowing off in high winds and an elastic cord sewn into the bottom hem ensures a snug fit.

COVER FOR UTV WITH ROLL CAGE

Protect your UTV during its downtime. Optimal storage and weather protection. Large enough to entirely cover a UTV with a roll cage and durable enough to ensure protection from the weather and unexpected storage damage. Reliable all-weather protection for your utility vehicle. Heavy-duty, coated polyester with maximum water repellency and UV resistance. Vents on both sides help prevent blowing off in high winds. An elastic cord sewn into the bottom hem ensures a snug fit.

WATER PUMP REBUILD KIT

Includes all necessary hardware to rebuild one water pump.

BRAKE DRUM SEAL KITS

Protect expensive brake components and prolong shoe life by replacing worn or damaged seals. Designed as a direct O.E.M. replacement.

WHEEL STUD AND NUT KIT

Direct O.E.M. replacement press-in wheel studs. Kit Includes studs and lug nuts.

INDIVIDUAL WHEEL BEARINGS

High-speed bearings are manufactured to ABEC 3 precision levels with triple-lip rubber seals that keep the grease in and the water, dirt and grime out. Chevron SRI 2 grease contains rust and oxidation inhibitors (-29° C to 177° C).

MASTER CYLINDER SEAL KITS

All the seals, O-rings and springs needed to reseal a master cylinder.

INDIVIDUAL WHEEL SEALS

Double-lip TC seals with stainless steel garter springs.

CALIPER REBUILD KIT

Each kit contains all parts necessary to rebuild one caliper. Includes boots, seals, bleeder cap, brake pad retaining pins and copper washers.

ATV WHEEL BEARING AND SEAL KITS

Contains all the bearings and seals required to re-fit a wheel. High-speed bearings are manufactured to ABEC 3 precision levels with triple-lip rubber seals to keep the grease in and the water, dirt and grime out. Chevron SRI 2 grease contains rust and oxidation inhibitors (-29° C to 177° C). Double-lip® TC seals with stainless steel garter springs.

UTV WHEEL BEARING AND SEAL KITS

Contains all the bearings and seals required to re-fit a wheel. High-speed bearings are manufactured to ABEC 3 precision levels with triple-lip rubber seals to keep the grease in and the water, dirt and grime out. Chevron SRI 2 grease contains rust and oxidation inhibitors (-29° C to 177° C). Double-lip® TC seals with stainless steel garter springs.

CABLE ASSEMBLIES

Black PVC outer sheathing provides maximum flexibility and durability. Pre-stretched inner wire is flared out before the terminal end, and is cast for superior pull-out resistance. Molded-rubber components feature EPDM rubber for high UV-resistance and longer life. Rubber boots are designed with a tighter fit than O.E.M. for superior water and dirt resistance. Meets or exceeds O.E.M. standards.

**CLUTCH
CABLE**

**THROTTLE
CABLE**

**REAR HAND
BRAKE CABLE**

**REAR
BRAKE CABLE**

**PARKING
BRAKE CABLE**

CHAIN ROLLERS

A direct O.E.M. replacement with triple lip sealed ball bearings for superior dirt exclusion, compared to the factory unit.

UNIVERSAL JOINTS

Heavy-duty construction for increased static strength and longer life with precision-ground trunnion and bearing surfaces, to ensure trouble-free operation. Easy-to-lube during fitting and during the re-lube cycle.

REAR CARRIER BEARING UPGRADE KIT FOR SPORT ATVs

Replace two side-by-side bearings with one double-wide angular contact bearing to increase capacity and life by 30%. Kits for all late 450cc sport ATVs.

CENTER DRIVE SHAFT BEARINGS

Designed to be more aggressive than the O.E.M. seals, keeping out more dirt and water for improved performance and increased life.

COUNTERSHAFT BUSHING AND SEAL KIT

Kit includes case-hardened bushings with a replacement outer seal and any O-rings, snap rings or lock washers required to complete the repair. Meets or exceeds O.E.M. specifications at a fraction of the cost.

DIFFERENTIAL BEARING AND SEAL KITS

Kit contains all of the bearings and seals required to service an ATV differential.

DIFFERENTIAL SEAL KITS

Kits contain the three outer case seals for repairing oil leaks.

CARBURETOR KITS

Kits include all necessary components to repair carburetor; models with two carburetors include components to repair both carburetors. Components included in the kits are based off of US models.

ONE WAY CLUTCH BEARING KIT

Stock bearings are sealed on the outside only, providing minimum protection. The Clutch Bearing Kit includes double-sided bearings that eliminates grinding during gear shifting from forward to reverse.

PERFORMANCE CLUTCH KITS

Improved performance on or off the trails, with increased efficiency when transferring power from the machine down to the wheels, resulting in improved low- and mid-range acceleration. Decreased belt slippage results in lower clutch heat, enhancing back shifting and throttle response. Designed for use at any elevation with stock motor and exhaust; field tested to assure satisfactory results.

SPORT UTILITY CLUTCH

UTILITY CLUTCH

MUD CLUTCH

COMPLETE GASKET SET WITH OIL SEALS

Set includes all gaskets and oil seals necessary to rebuild the engine and transmission, including output shaft, water pump, clutch, shift and starter seals.

CLUTCH COVER GASKET

Replaces O.E.M. foam cover gasket. Direct O.E.M. replacement.

OIL SEAL SET

Sets include all engine oil seals necessary to rebuild the engine, including crankshaft, output shaft, water pump, clutch shaft and starter seals. Excluding valve stem and water pump seals.

TOP END GASKET SET

Gasket set designed for piston replacement. Includes the head, base and upper gaskets.

CRANKSHAFT BEARING AND SEAL KITS

Koyo® precision crank bearings. Double-lip seals with PTFE contact area tolerates dry start conditions with less crankshaft pin wear.

EXHAUST GASKET KITS

Two stroke kits include all applicable O-rings, springs, washers and gaskets. Four stroke kits include the exhaust gasket. Multi-cylinder applications include enough items for the entire machine. Polaris® kits include gasket, both header donuts and springs.

WATER PUMP MECHANICAL SEALS

The QuadBoss® Water Pump Mechanical Seals are direct O.E.M. replacements at a fraction of the cost. Features high-quality seal face material that performs better, combined with corrosion and chemical-resistant materials that keep the engine cleaner, safer and cooler. Meets or exceeds O.E.M. specifications.

VALVE COVER GASKETS

QuadBoss® Valve Cover Gaskets are made from superior materials, designed to match O.E.M. valve cover specifications preventing leaks and lasting longer, compared to the stock covers. High compressibility allows for tight seal, even on worn and irregular surfaces.

BATTERY ISOLATOR KIT

Designed for dual battery systems, the Battery Isolator Kit connects between batteries only, no alternator or ignition connections required. Protects electronics during start up and saves the charge on the starting battery, while using electrical devices.

BUS BAR

The QuadBoss® Bus Bar alleviates multiple connections to battery terminals by allowing you to connect various power accessories. Made from tin-plated solid copper for maximum conductivity and resistance to corrosion.

CDI BOXES

These CDI Boxes are designed to unleash the power and enhance overall performance. Includes duplication circuits for maximum reliability, increased RPM redline and altered ignition advance curves to increase performance throughout the RPM range.

SHIFT CONTROL MOTORS

This direct O.E.M. replacement will get precise shifting action back to your machine at a fraction of the cost. Fully sealed construction for long life in harsh conditions with plug-and-play connectors for a direct fit to the O.E.M. harness.

VOLTAGE REGULATORS

These voltage regulators are designed to handle increased power loads and keep the voltage strong and steady. Designed to meet or exceed original equipment. Includes O.E.M.-style connectors and stock mounting locations.

IGNITION COILS

QuadBoss® Ignition Coils put the punch back in your spark, restoring lost power and fixing those weak, no spark issues.

ALTERNATORS

Keep your battery charged and ready to go with a steady supply of power with QuadBoss® Alternators, designed to meet or exceed OE specifications. O.E.M.-style connectors with stock mounting locations.

UNIVERSAL SOLENOID SWITCHES

Universal Solenoid Switches come with multiple connections, allowing for an easy install. Fits universal solenoid on most ATV/UTVs.

STATORS

A good stator will spark a strong startup, keeping the machine's electronics running smoothly. O.E.M.-style connectors, designed to meet or exceed original equipment specifications.

STARTERS

Keep your Quad humming and wheels turning with a powerful and reliable starter.

REPAIR KIT

Any ride you push this hard will eventually need a repair. Keep a Repair Kit handy so the good times can keep rolling.

STARTER CLUTCHES

Don't be sidelined by a worn starter clutch. Restore full torque to the starter system for reliable starts every time. Meets or exceeds original manufacturer's specifications and is 100% O.E.M. interchangeable with no modifications needed.

STARTER SOLENOIDS AND RELAYS

It's time to get started. These solenoids and relays offer maximum magnetic pull strength for reliable starts, longer life and reduced voltage drop, with plated brackets and canisters to eliminate corrosion.

ATV AND UTV COOLING FAN ASSEMBLIES

QuadBoss® Fan Assemblies help prevent overheating and keep the engine cool when you're pushing it to the limit.

FAN MOTOR ONLY

A strong fan motor will help the engine stay cool. QuadBoss® Fan Motors are a direct O.E.M. replacement, designed to provide non-stop cooling.

SHIFT ANGLE SENSOR

Direct O.E.M. replacement. Replaces the most common cause of shifting issues. Rubber o-ring included.

LINKAGE REPAIR KITS

An offroad vehicle is only as good as its weakest link. Make sure it never becomes an issue with QuadBoss® Linkage Repair Kits. Kit contains all the components required to properly rebuild the linkage bearing assembly. Needle bearing shafts are made with 52100 bearing steel that has been hardened and precision ground. All metal bushings are case-hardened and plated to prevent wear and corrosion.

SHOCK SEAL HEAD KITS

Completely assembled and ready-to-install QuadBoss® Shock Seal Head Kits are a direct O.E.M. replacement, with the latest O.E.M.-style seal and pre-scraper. All designs incorporate an air bleed hole for easy reassembly.

SUSPENSION SPRINGS

Bottoming out is not a pleasant sensation and one that can be avoided with a set of durable suspension springs. Heavy-duty springs are approximately 25-30% heavier than stock and made of high-quality chrome silicone.

SHOCK BEARING ASSEMBLIES

No one likes a defective bushing, so get back into shape with the Shock Bearing Assemblies from QuadBoss®. Kit contains direct O.E.M. replacement bearing assembly with all of the required components. Lower Shock Bushing Kits are sold individually for front and rear position.

REAR INDEPENDENT SUSPENSION REPAIR KITS

Keep your upper and lower A-arm and knuckle in fighting shape with this quality repair kit. Kit contains all of the components required to rebuild the upper and lower A-arm and knuckle. Needle bearing shafts are made with 52100 bearing steel that has been hardened and precision ground. Self-lubricating acetal nylon bushings for better wear and performance. All metal bushings are case hardened and plated to prevent wear and corrosion.

SWINGARM REPAIR KITS

Ensure your swingarm bearing assembly is properly rebuilt with this repair kit. Needle bearing shafts are made with 52100 bearing steel that has been hardened and precision ground. All metal bushings are case-hardened and plated to prevent wear and corrosion. POM composite washer bearings replace thrust needle washers for increased service life and superior resistance to water and dirt.

SHOCK BUSHING KITS

No one likes a defective bushing, so ensure it stays in good shape with this direct O.E.M. replacement, from QuadBoss®. Sold individually with all required components.

FRONT A-ARM REPAIR KITS

A direct O.E.M. replacement kit guaranteed to get your A-arm out of its sling and back into fighting shape, in no time. Contains all of the bearings and bushings, bearing shafts, seals, shims and spacers required to rebuild one A-arm.

TIE ROD END KITS

All the necessary elements to guarantee optimal tie rod end performance. Kits include two tie rod ends and jam nuts, one left-hand thread, one right-hand thread. Housings have been strengthened in critical areas.

STEERING RACK TIE ROD ASSEMBLY KITS

Repair instead of replacing the entire steering rack assembly. Tie Rod Kit, Outer Only: contains one tie rod, which attaches to the steering knuckle. Tie Rod End Kit, Inner and Outer: contains both tie rod end and shaft that connects to the steering rack as well as the outer tie rod end, boot and the required hardware for one side.

TIE ROD ASSEMBLY UPGRADE KITS

Failure is not an option when out on a ride, so ensure it remains an anomaly with this upgrade kit. Upgrade failure-prone 10mm tie rod ends to heavy-duty 12mm ends. Kits include four rod ends, two rods and all hardware for a full conversion.

STEERING STEM BEARING AND SEAL KITS

Keep your lower steering bearing and seals in optimal condition with this kit. Includes lower steering stem bearing and seals.

HEAVY-DUTY BALL JOINT KITS

Features a durable steel-on-steel design and adjustable end cap, which allows slop to be taken up as they wear.

TAPERED DAC BEARING KITS FOR UTV

Tapered DAC Bearing Kits offer great static performance and dynamic load capacity. The high-performance, tapered bearing delivers a 95% static load and 86% load carrying capabilities, on average, when compared to standard DAC bearings.

KING PIN KITS

Save a ton of money, compared to O.E.M. options. Includes all bushings, pins and seals needed for repair and replacement.

SWAY BAR LINKAGE BUSHING KIT

Replacement bushing pins and washers for Can-Am sway bar linkage. Kit includes eight high-performance polyurethane bushings, four steel pins and eight washers.
